

## Zeiss VISUCAM NM/FA (Pre-Owned)

VISUCAM<sup>®</sup>NM/FA features legendary ZEISS optics and non-mydratic color fundus photography enabling you to photograph through pupils as small as 3.3mm. In addition the VISUCAM<sup>NM/FA</sup> features Fluorescein Angiography (Standard) and Indocyanine Green Angiography as well as Fundus Autofluorescence capture modes (Optional). Advanced features along with an easy stereo image mode are combined with intelligent auto functions that enable reproducible and intuitive imaging for every single patient eye.

Superior patient comfort, more efficient workflow and improved eye care: The VISUCAM<sup>NM/FA</sup> from ZEISS offers many advantages. The high-quality system provides everything you need for comprehensive assessment and management of typical eye diseases such as diabetic retinopathy, glaucoma and AMD in a single workstation.
